

Information for guardians!

With children in primary school/ in Falköping municipality .

Preparatory information for guardians With children in primary school 20200318. In view of the extraordinary situation that Sweeden is in today, the children and Education administration in Falköping municipality wants to inform about an increased need for distance education. Today all teaching for upper secondary school students is transferred from secondary school to distance education and the Swedish government has announced that new decisions regarding compulsory school and per-school may be relevant . Preparations are underway to give the elementary school students the same opportunity in the event of a new government decision to transfer teaching to the home. If it becomes relevant , school and home will be required to work together to ensure all students fight to education. It is important that pupils are given the conditions to continue their school with the support of teachers as compulsory schooling continues to apply. Education minister Anna Ekström announced in Thursday's government decision that the semester may be extended as well as teaching during weekends may be considered to give students the school time they are entitled to. One way not to waste time is for students to work at home with digital support. Thanks to the fact that the students are already accustomed to receiving digital instructions and materials today , we have good opportunities from the school to be able to teach distance learning and eventföretagaren the conditions differ between year classes and school. Preparations are also underway to be able to provide continued leisure home placement to the pupils whose guardians work in the socially beneficial functions decided by the government , If government decisions are made to reduce the scope of the recreational home. In an even more urgent situation, prioritization of leisure home places may become relevant and it is also necessary here that recreational homes and homes work together to maintain and protect our society . Each school will provide information on how to organize the teaching and what tools are available. Examples of student schedules are worked out to support students daily content. Keep yourself updated on the municipality website where links to all relevant agencies can be found.
